We'd Like to Introduce Ourselves

Today's technology can help a park district better serve the needs of clientele while reducing costs, but with all the new technologies out there, it's hard to know what's best. Our engineers are ready to listen to your needs and present you with options that are tailored for your park district and your budget. If you are ready to evaluate voice, data, or network technology upgrades, please <u>contact</u> <u>me</u> to arrange a complimentary readiness assessment.

Jack Bush, President

Here is What We Offer

VOICE, DATA, WIFI, CABLING, NETWORK SERVICES

VoIP Phone Systems Hosted and On-Premises VoIP Phone Systems for Park Districts

Today's phone systems can make the multi-site park district look and work like a single site for clientele,

employees and suppliers. VoIP phone systems run on the same network as your computers and we often help customers converge their phone lines and internet to reduce expenses.

We can provide hosted or premise based <u>IP voice</u> systems from a variety of providers and will guide you through the process from design to installation to training - all of which is included in our IP phone system price.

Wireless Solutions

Park Districts are finding it necessary to upgrade their <u>WiFi</u> systems to provide reliable connectivity across all of the facilities. The solution is refreshing the infrastructure with a wireless network that can meet bandwidth needs now as well as for years to come.

Structured Cabling

S&G Communications is our division that provides voice and data cabling for manufacturing, retail, healthcare, education, and other enterprise customers in the greater Chicago area. Our **certified**, **union technicians** are experienced in fiber optic cabling, voice and data center cabling, racks, cabinets, under-floor tray systems, wireless access point installation, and more. By using quality products and certified technicians, we can provide you with an infrastructure capable of supporting all applications designed for today's standards. Learn more about our services and summer sale <u>here</u>.

Summer Special: 15% Off Cabling Upgrades and Free Cabling Assessment

Network and Cloud Services

FIBER OPTIC SERVICES have become more affordable,

so you may be able to upgrade your

network speed for about the same as you are currently spending. We can save you time and money by providing you with multiple quotes and a variety of solutions tailored for your business. Learn more about our network services here.

NexGen Services is a telecom and network engineering firm specializing in IP voice, wireless, security, networking, and cloud services. Our team of experts has over 30 years of experience designing and providing IP voice installations for healthcare, education, and enterprise customers in the greater Chicago area.
