Perimeter Protection for Park Districts with Smart Video Surveillance Systems by Verkada

Discourage Unwanted Activity Before It Becomes a Security Event

Perimeter Security as the First Line of Defense

With perimeter protection by Verkada, cameras observing the fence line, remote, or restricted areas trigger an alarm when motion activity is noted. The goal is to discourage unwanted activity *before* it develops into a security incident.

Verkada Uses AI to Eliminate False Alarms

Verkada has developed AI driven capabilities designed specifically for outdoor environments to help eliminate false alarms caused by other motions, like moving tree branches, that could trigger sensors.

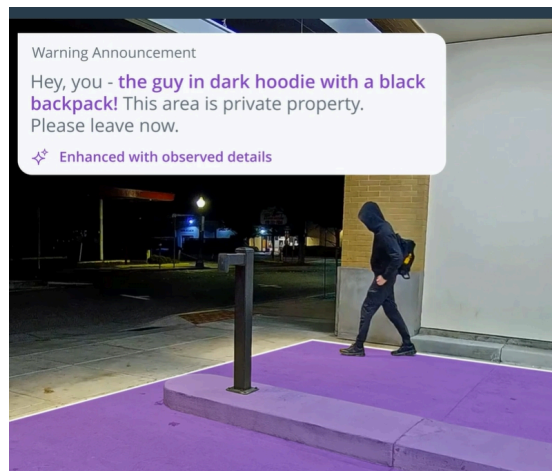

Verakada's AI Voice Generated Warning

Transform After-Hours Security with AI Powered Talkdown

Verkada utilizes AI to perform scene analysis and customize talkdown messages through horn speakers. Cameras can also alert facility managers to unusual activity allowing them to remotely broadcast live.

Generate Multiple Continuous Responses Tailored to Your Requirements

A continuous warning program can be configured to your specific needs that begins with AI-powered deterrence upon detecting a person and triggers an alarm if they don't leave after repeated warnings.

AI generated talk-down delivers personalized audio warnings to ward off intruders.

Remote Cameras by Verkada

The Verkada Remote Series is quick to deploy and easy to move, providing coverage even in areas that lack power and internet. Perfect for areas including remote pathways, fencing and parking lots, or pond and beach areas.

The cameras provide 24/7 streaming and impeccable image quality. Onboard processors support powerful AI analytics, allowing you to choose between person and vehicle analytics or license plate recognition, and get real-time alerts.

No WiFi - No Problem

The remote series allows you to monitor almost any area, even where running cable is impossible.

Works With Any Power Supply

Charge temporary installations with 120V, use the pole tap adapter for continuous power, or add a solar panel and backup batteries for areas without available power.

Discourage illegal activity and receive an alert if a specific kind of activity is noted. With the ability to deploy cameras in even the most challenging environments, Verkada now allows you to monitor your entire site – from the very edge of your perimeter through the building's interior – in one unified platform.

Create Safer Park Districts with Verkada

Increase Your District Security

Providing adequate security in a **Community Park District** that may include a swimming pool, a recreation center, skate park, or golf course, brings a unique set of challenges where staff or security professionals who need to watch over a variety of areas.

Monitor All Sites, at the Same Time, from Your Computer or Cell Phone

Now, **all of these environments can be monitored in one place, at the same time, on any device, from anywhere** with Verkada's Smart Video Surveillance powered by Artificial Intelligence (AI).

One Platform and AI Technology by Verkada

Verkada, a fully integrated hardware and software solution, combines intelligent devices with an easy-to-use platform helping you successfully ensure public safety.

Verkada's sensitive smart indoor and rugged outdoor cameras can be easily deployed anywhere including hard-to-wire locations, making it simple to ensure public safety anywhere.

Our Suite of Cloud-Based Solutions

Modernize your building's approach to physical security and awareness in an all-in-one solution.

Camera

Powerful onboard processing to bring simplicity and speed to your investigations.

Access Control

Plug-and-play access control solution built for ease of use and limitless scale.

Environmental Sensor

Data-driven insights for monitoring changes across your environment.

Alarms

Cloud-managed intrusion detection with 24-7 professional monitoring.

Guest

Personalize the check-in experience for all types of visitors while integrating with cameras and access control.

Mailroom

Intuitive app and dashboard to track shipments and help ensure deliveries get to the right people.

Intercom

Seamless talk-down and unlock capabilities to manage building traffic right from arrival.

Verkada is now Available as an OpEx

Physical Security As a Service (PhySaaS)
Allows the Purchase of a Verkada Security System as an OpEx
Eliminating the Need for a Large Capital Investment

Verkada is a TIPS Vendor

ABOUT TIPS PURCHASING COOPERATIVE

Verkada is an approved member of TIPS, a national purchasing cooperative offering competitively solicited contracts to education, government, and nonprofit agencies, saving them both time and money. TIPS is a FREE service that provides a proven, streamlined process that eliminates the purchasing stress for Members while providing quality pricing. For more information, visit their website at www.tips-usa.com or call 866-839-8477.

About S&G Communications

In business for over 25 years, we are a Veteran-Owned Small Business and a **Verkada Gold Partner**. We have helped a number of Chicago area enterprises, schools, and park districts with their technological upgrades and installations including surveillance systems, VoIP phone systems, structured cabling, wireless and network services. Our experienced engineers will assist you with the design and implementation of the best security system for your needs. Our installers are professional certified union technicians.
