

### Enhance Workplace Safety - Protect Workers and Prevent False Claims

**Verkada Smart Video Surveillance Systems**

One of the most powerful ways to create a safer environment is to employ *Smart Video Surveillance* powered by *Artificial Intelligence (AI)*. **Verkada** is a fully integrated hardware and software solution that combines intelligent devices with an easy-to-use platform, making it simple to ensure worker safety and create a secure environment.

**S&G Communications** has recently installed Verkada surveillance and access control systems in several **Dover** manufacturing sites: **Destaco** locations in Illinois, Tennessee, Michigan, and Minnesota, and at **Dover Fuel Solutions** in Austin, TX. Several other Dover locations are currently evaluating the Verkada systems.

**Our security system site surveys at Dover facilities revealed that many of the sites are experiencing the same issues:**

#### Current State

Outdated cameras with marginal video quality.

Limited coverage to provide building security or to evaluate employee safety incidents.

#### Desired State

One integrated security platform on a single plane of glass.

Monitor sites from anywhere. Accessible from a web browser or mobile app on your choice of device.

Lost or over-written video of critical events.

Limited evidence tracking and management.

Limited integration with other systems.

No intrusion alarms.

Lengthy investigations due to DVR or NVR search.

Immediately view, find, save, and share footage with first responders.

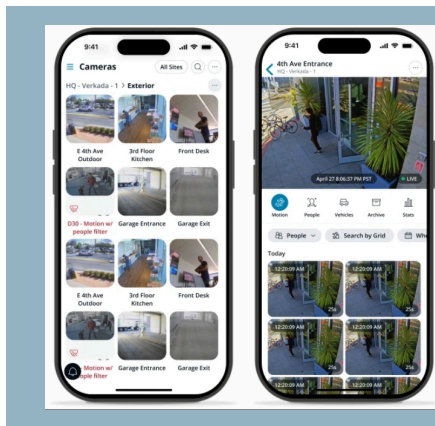

Sensors: Motion, gun shot, noise level, air quality, contaminates.

Lockdown doors in seconds with panic button, web browser, or mobile app while still allowing access to first responders.

Alarms: Catch and respond to break-ins with cloud managed intrusion detection and 24/7 professional monitoring.

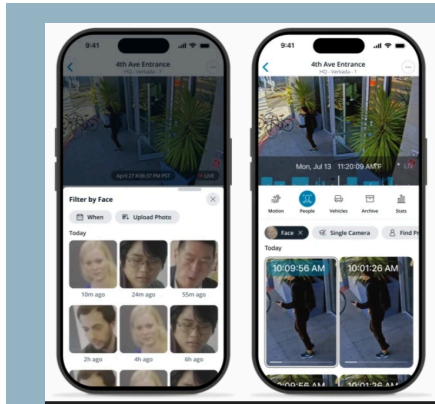

Refine search by object type, car, person, item, clothing, etc.

## Manage Industrial Safety from Anywhere

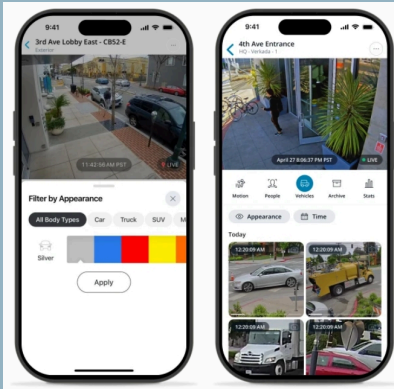

### Motion Grid History

Instead of scrolling through hours of footage, you can skip to the moments in which motion was detected. Select a region to find only the most relevant video results.

### People Analytics & Profiles

Speed investigations by filtering results using face search, clothing color and appearance. Create profiles to be notified when person of interest is detected across sites.

## Find Critical Footage In Seconds

### Vehicle Analytics

With Verkada's mobile app, cloud-based footage is just a swipe away.

## Why Verkada?

### No DVR/VCR

Stores the video on the camera for 30, 60, 90 days or more, then uploads it to the Cloud

### Easy Multi-Site Management

View, find, save, share from any device, anywhere

### Unlimited Users Unlimited Cloud Archiving

### 24/7 Technical Support

via live chat, phone, or email

### Up to 10-Year Warranty and predictable renewal costs

### Automatic Updates

Continually unlock new features and security updates

## About S&G Communications

S&G Communications has been in business for over 25 yrs. We are a Veteran-Owned Small Business. We have helped a number of Chicago area enterprises with their technological upgrades and installations including VoIP phone systems, WiFi, network services, cabling, and surveillance system needs.

Our experienced engineers will assist you with the design and implementation of the best system for your needs. Our installers are professional certified union technicians. Learn more about us at
